

"Speak softly and carry a big stick; You will go far..."

BLC Presents: 15-22's Square Deal

A straight 15-22 pattern feeding device, up to 42 rounds

11/2023

Big shout-out to my testers Nesor, NeoAeon & Atomsk

Thank you all for all the hard work and dedication you guys put in making this release happen!:

Special shout-outs to: NeoAeon, BadCad, Newton, Atomsk and ModeratorGage for all your endearing support!

Tested reliable for over hundreds of rounds.

Print in your favourite material(s) and print it strong (like 6/6/6@15% is the minimum).
Recommended orientation should be standing up with minimal internal/external support.

Assemble & print according to drawing, see BOM for parts.
Standard 15/22 Mag spring can be used up to 30-35rnd.
40rnd and 42rnd versions need a slightly longer spring.
The base is a tight fit, scale slightly larger (102%) if needed.
Bolt holes are undersized, drill to 4.0mm after installing.

Code is free speech, art.

It is your responsibility to build and use it responsibly.

Feel free to remix, a mention is nice.

No STPs available. Feel free to convert.

Please enjoy responsibly.

Cheers, Max
