

Installation instructions:

- 1) Install Solidworks
- 2) Uninstall Solidworks hastily while laughing maniacally
- 3) Obtain 1x Camillus M4 bayonet
- 4) Buy 2x M3x20 SHCS's, and 2x M3 nuts - and while you're there, snag yourself 2x M5x30 SHCS's and 2 nuts for those bad boys
- 5) Send the DXF into the magical SendCutSend internet box and buy one that's 3.9mm
- 6) Print the PURSE SNATCHER 9000™ with the pic rail down
- 7) mash everything together haphazardly until it looks cool enough to post online
- 8) ????????????????????
- 9) continue not using solidworks
- 10) be safe

Thanks to Copper Shop for beta testing this design. Love ya buddy. <3
